

March 31, 2023

Good morning! It's Rainie from 731 and I'm here this SEAL Summary Friday on behalf of the S.E.A.L Team.

Today is March 31st, and we have officially completed the longest academic month of the year. Let us take inspiration from the words of Confucius, who once said, "It does not matter how slowly you go as long as you do not stop."

We have made it through the third quarter of the academic year, but there is still much work to be done. Let us keep moving forward, even if progress seems slow at times. Every step we take brings us closer to our goals.

As we enter the month of April, let us renew our commitment to academic excellence and personal growth. With a steady pace and a persistent effort, we can overcome any obstacle and achieve our aspirations.

So, let us remember the wisdom of Confucius and keep pushing forward, one step at a time. We can do this!
